WELCOME

Nürnberger Land – a great place to live and work
HERE, YOU ARE IN EXACTLY THE RIGHT PLACE.
WE HAVE THE BALANCE.

The only thing that was missing was YOU! And because that’s a fact, we have kept a place on the red armchair on our title page, just for you. Feel free to come and settle down in Nürnberger Land. You will soon see that with us, you will exactly find just the right balance between city and countryside, learning and feasting, the economy and the labour market, old and young people.

- **Short distances:** The countryside is right outside your front door and the big city of Nuremberg (Nürnberg) is not far away either.

- **Living with the right perspective:** There are many workplaces, great opportunities to earn good money and there is also excellent child care.

- **Optimum educational opportunities:** Thanks to comprehensive early childhood care, a wide variety of school facilities and numerous further education options, there is a chance for everybody here.

- **Everything you need:** The shops for all your everyday shopping needs, doctors, hospitals along with nursing services and facilities are all nearby.

- **Making contacts:** The many festivals and club events are ideal for meeting other people. However, nobody needs to do without long-standing friendships: the high-speed internet which is constantly being expanded within the district provides you with an instant connection to the rest of the world.
In the heart of the countryside, but nevertheless not off the beaten track: the Nürnberger Land district is located in the centre of the European Metropolitan Region of Nuremberg (EMN). Cities like Nuremberg, Furth and Erlangen are just a stone’s throw away and the first-class transport network guarantees short distances and quick connections.

By car:
The motorway network opens up the entire district. No matter whether you want to travel to Berlin, Frankfurt or Munich: within just a few minutes, you are on the right track – and you can be in the city of Nuremberg <Nürnberg> quickly, too.

By bus and rail:
The well-established interurban railway makes commuting pleasant, fast and straightforward – for commuters, pupils and students alike. Moreover, regional railways and buses help you get from one place to the other, comfortably and easily. Connections to supra-regional long-distance transport is ensured via Nuremberg central station.

By plane:
The airport in the north of Nuremberg can be reached via the A3 motorway in just a few minutes. Or you can take the train to Nuremberg central station and continue directly to the airport by underground.
OUT OF THE OFFICE
RIGHT INTO THE COUNTRYSIDE

Those who live here can count themselves lucky: the distances to the workplace are short, the countryside is right on the very doorstep and the big city night life is within reach, too. In the Nürnberger Land district, all this takes you only a few minutes. Thanks to the convenient motorway connection and the well-developed railway network, you can commute quickly from your home to the workplace or to the big city — and vice versa, of course.

And once you have finished all your jobs at work and overcome all your challenges in the office you can get out of work and right into the countryside. Nürnberger Land has got a lot to offer. Here, those who are active can work off excess energy going climbing, mountain-biking or canoeing. Sociable people can meet friends in one of the traditional, old Franconian inns called “Wirtshaus” or in a beer garden. Those who are interested in culture can go to the theatre or to a concert. And the ones who simply want to unwind can look for a cosy spot in the middle of the countryside and enjoy a bit of peace and quiet. The “green garden on Nuremberg's doorstep” is a good place to live – at really affordable prices, compared to the ones in the big city.

SHORT DISTANCES
The railway takes you from Neuhaus / Pegnitz to Nuremberg – that is right across the whole district of Nürnberger Land – within just 34 minutes.

AFFORDABLE LIVING
In Munich’s famous inn “Hofbräuhaus”, you pay 8 euros for a “Radlermaß” - one litre of shandy. In Nürnberger Land, you can enjoy the same shandy for around 5 euros.

EXCITING NATURE
Here, you can do whatever you fancy: biking, hiking, climbing, horseback riding, skiing, swimming, going out or simply chilling out.
LEARNING & FEASTING

STUDY FIRST, PARTY LATER

People who send their children to school in Nürnberger Land can choose from a wide range of educational options. Elementary schools, grammar schools, full-time vocational schools and technical secondary schools — they are all to be found here. Even universities and colleges of further education are close at hand. Kindergartens and day-care centres care for the little ones, and courses at adult education and vocational training centres for the grown-ups. Once you have finished learning, it is time to party.

The parish fairs in Nürnberger Land are a good place to have fun and enjoy tradition. Every town or village has its own customs and traditions. And when the girls and guys are dancing around the tree in their appealing attire, this is a real eye-catcher. People can also paint the town red at old town festivals. Adolescents rock at the "Veldenstein castle" festival. The festivals dealing with Wallenstein or the historic knight Eppelein boast fanciful period costumes. And if anyone should suspect that the people of Franconia do not have lots of humour should visit the annual "Hersbrucker Eselsrennen", an event in Hersbruck where obstinate donkeys – led by likewise stubborn 2-legged guides – race one another.

And that the jewellery maker Thomas Sabo founded his company in the Nürnberger Land district in 1984 and has had his headquarters here ever since? And that the outdoor brand Marmot controls its European business from here?

Traditional craftsmanship is as much at home in Nürnberger Land as are industrial enterprises and global players. The mix of industries makes the difference and offers employees countless professional perspectives and career opportunities – be it in the field of electro-plating plants and electrical engineering, in the building sector, the packaging industry, in automotive or mechanical engineering or in medical technology. Here you will find automotive parts suppliers, manufacturers of office chairs and toys as well as service providers. And most of you will savour the fact that there are numerous breweries and inns or restaurants in the Nürnberger Land district, too.
